

ENHANCING LIVES THROUGH DESIGN

## New Products Introduced at the Milan Furniture Fair

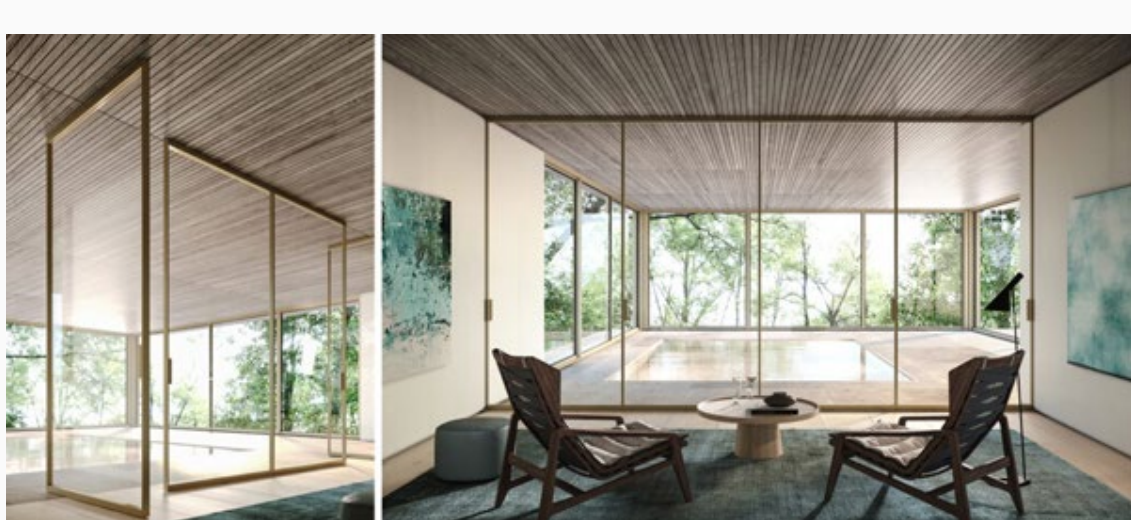

*MandiCasa's collection is expanding with exciting new door, bathroom, and closet additions that our Italian manufacturers introduced at the recent 2022 Milan Furniture Fair/Salone del Mobile.*

### PIVOT DOORS AND GLASS WALL SYSTEMS

Available in framed glass and wood, the pivot doors are certified to hold a load of up to 330 lbs and can be made-to-measure in considerable sizes. The pivot hinge, hidden within the perimeter profile, can be placed either in the center or to the side.

Along with new glass wall systems matching the doors, this product opens up interesting aesthetic possibilities at the design and architectural level.

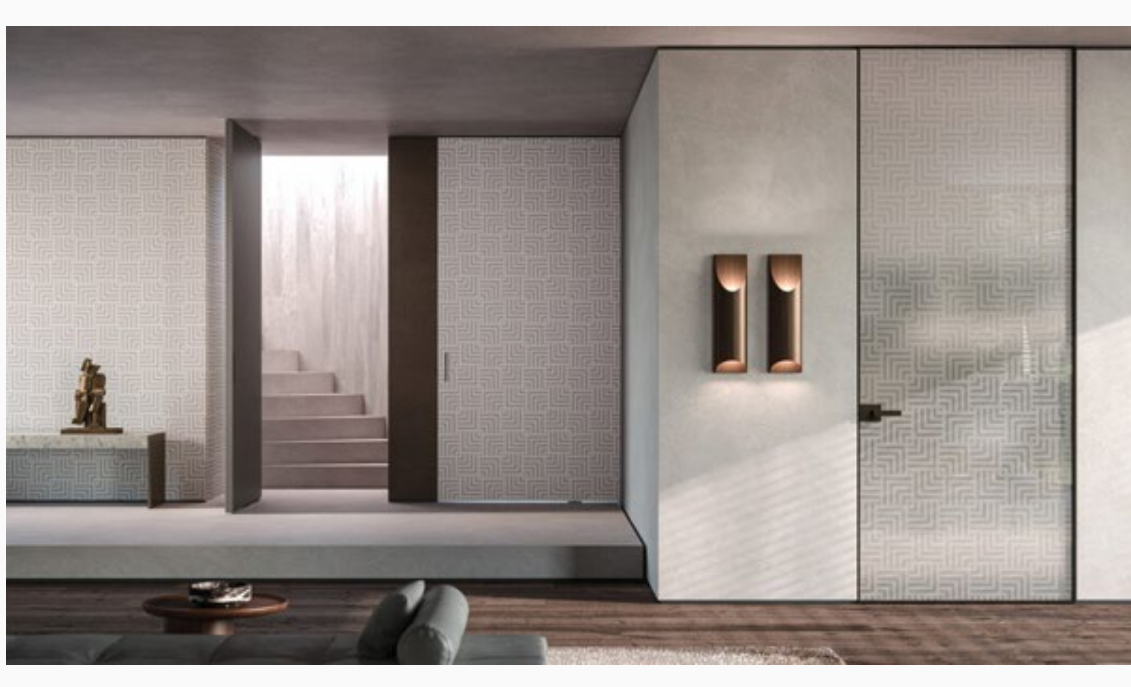

### NEW DOOR DECORS AND WALLPAPER

New designs by [Nicola Gallizia](#) expand the range of decorative effects for [our glass doors](#), giving them a strong identity and integrating them more and more into the architecture and interior of the home.

The decorations are set between the two 10mm sheets of tempered glass to guarantee durability, safety, and easy maintenance.

Heritage (shown in the header), Origin, Tweed, and Open Up (shown below) are four dynamic graphic patterns that are also available as wallpaper to create a continuum between the doors and the adjacent walls. The wallpaper material is resistant, fireproof, easy to remove, and embossed to feel like canvas to the touch.

Plaster finishes and new grid compositions blur the line between industrial and modern.

Additional decors recreate the feel of oriental fabrics, the lightness of Japanese paper, and the unique texture of leather, giving contemporary form to sensory materials with cultural resonance.

### COMING SOON: SARTUS BATHROOMS

Designed by [architect Stefano Cavazzana](#), Sartus is a new luxury bathroom line where every decorative detail is also a core functional element. This includes the wooden frame, which defines the contours of the cabinets while serving as a minimalist handle.

An unprecedented line of modular elements - including wall bookcases, columns, and consoles - allows the development of different solutions for the bathroom and beyond, creating continuity among the living areas of the home.

### CLOSETS: AESTHETIC AND FUNCTIONAL EVOLUTIONS

Our closet systems continue to expand the functional capacity of the walls of the home, while turning them into canvases for design creativity. Additions include new finishes reproducing the aesthetics of marble and metal, further customization of the modules, and corner units with total opening to exploit the interior spaces even more.

SEE OUR CLOSETS COLLECTION

All bathrooms, interior doors and closet systems are made in Italy and available in North America through MandiCasa's flagship showrooms in [Los Angeles](#), [New York](#), [Miami](#), through our exclusive dealer, [MandiCasa Hollywood](#) as well as our [authorized dealers' showrooms](#).
