ENHANCING LIVES THROUGH DESIGN

Dario Snaidero Introduces New Products To The MandiCasa Collection

MandiCasa's new luxury bathroom collection and glass doors finishes open up the possibilities for captivating interior designs.

SARTUS BATHROOM COLLECTION

Designed by Italian architect Stefano Cavazzana, the new luxury [Sartus Bathroom collection](#) transforms decorative details into essential elements. The concept offers a contemporary solution that brings the bathroom closer to the living areas of the home, in both functionality and aesthetics.

At the core of the Sartus design is the distinctive wooden frame which defines the contours of the cabinets while serving as a minimalist handle.

Another element - the versatile metal bar - creates the support structure for the Drappers bookcase and storage system, which can include shelves and cabinets to create wall or freestanding units. Used on its own attached to the wall, the metal bar becomes a multi-purpose rail accessorized with towel holders, shelves, and trays for a variety of objects.

Floating vanities and cabinets with legs combine with the above elements allowing you to create designs with unique visual rhythms.

NEW INTERIOR GLASS DOORS DECORATIONS

Architectural and sophisticated, the latest finishes in [MandiCasa's interior doors collection](#) elevate the luxury home space with their sense of uniqueness and exclusivity. As a refined expression of Made-in-Italy glass artistry, the finishes infuse each interior with their contemporary yet timeless essence.

In a nod to the modern architectural trend of using centuries-old materials, Ceppo di Gré reproduces the look of a sedimentary stone typical of the Lake Iseo area of Italy. Available for our [metal framed hinged, sliding, pivot doors](#) and matching wall systems, the finish features a scale of light to dark grey tones beautifully highlighted by the interplay between glass and light.

The Canneté finish offers a contemporary variation of the fluted glass concept. Using the synergies between glass and light, Canneté brings an elegant visual movement to our Manhattan metal framed doors that reverberates into the whole environment.

Available on extra-light, bronze, and frosted glass, the ribbed effect can come in 5 mm, 8 mm, or random patterns, each producing a different aesthetic rhythm.

MORE INTERIOR DOORS
