TECHNOLOGY

As an example of Italian craftsmanship and ingenuity at their best, the award-winning Yota is a modern luxury kitchen that adapts effortlessly to its surroundings. The Yota cabinet doors can be handleless with a push-pull opening mechanism or round groove for a modern aesthetic. Innovative lacquer finishes intersect with nuanced wood veneers to add emotion and personality, making each design a pinnacle of luxury. The kitchen featured has Micalux Lacquer, and the Island and tall units are Station Oak.
